TEST 1

Botanical Test

Our cultivation partners follow organic farming practices, and validate no traces of any heavy metals, solvents, or 60 potentially harmful pesticides are found before production begins.

✓ 60 Pesticide Test

TEST 2

Extraction Test

Once the citrus extract passes quality assurance, it's further refined into bioidentical cannabinoids. Here, the product undergoes a comprehensive molecular profile and potency test to determine the compound's unique cannabinoid makeup.

✓ Bio-identical
Cannabinoid Profile Test

TEST 3

Final Test

Before being shipped to your door, we ensure the accuracy of our partner tests by sending each batch through a final test of quality, profile, and potency. A summary of that test is summarized below and the actual results are on the following pages.
